PROFESSIONAL SUMMARY

An enthusiastic and highly motivated Software Engineering undergraduate at SLTC Research University with a strong passion for exploring emerging technologies, developing clean user-friendly web applications, and solving logical problems. Experienced in full-stack web development, object-oriented programming, and UI/UX design principles. Eager to contribute to innovative software projects and grow within a professional tech environment.

EDUCATION

BSc (Hons) in Software Engineering

SLTC Research University — Faculty of Computing and IT

Focused on software development methodologies, OOP, web technologies, and algorithm design.

2025 — Present
Ongoing

TECHNICAL SKILLS

 Web Development HTML5, CSS3, JavaScript Responsive Design Particles.js, Typed.js <i>Expertise: 85%</i>	 Java / OOP Object-Oriented Programming Design Patterns & Logic Code Testing & Debugging <i>Expertise: 70%</i>	 Python Data Architecture Scripting Algorithm Problem Solving Automation Module Flows <i>Expertise: 65%</i>
---	--	---

PROJECTS

Personal Portfolio Website

Full-Stack Web Development

2025 — 2026
Completed ✓

- Built a fully responsive personal portfolio website featuring dark/light theme toggle and smooth scroll navigation
- Integrated an AI chatbot assistant capable of answering queries about skills, education, and projects
- Implemented particle background animations using Particles.js and typewriter effects using Typed.js
- Applied AOS (Animate On Scroll) library for professional scroll-triggered animations
- Technologies: HTML5, CSS3, JavaScript, Particles.js, Typed.js, Font Awesome, AOS

INTERESTS & STRENGTHS

☒ Full-Stack Web Development	☒ Object-Oriented Programming	☒ UI/UX Design Layouts	☒ Adaptive Learning Methods
